Definitions

Expected day: scheduled working day inside employment, not on approved leave or a public holiday, whose shift has ended. **Attended:** at least one punch. **Late:** first punch (minute resolution) after start + grace; exactly at the grace limit is on time. **Absent:** expected day with no punch, decided only after the shift ends. **Incomplete:** one punch only. **Presence span:** first to last punch; breaks and unrecorded exits are unknown, so this is not confirmed working time. Night shifts count on the date they start. **Weighted score:** sum(score x weight)/100 on a 1-5 scale.
